MAKING THE SHIFT

FROM F2F

to

ONLINE TEACHING

A guide for teachers

What Kind of Online Learning Environment Should I Design?

Reflect on the culture you want to create, characteristics of the learners, teaching goals, available rsources, and assessment strategies.

Consider Learners' Characteristics

What age are your students, and do they have prior experiences working with technology in a physical classroom? Through distance learning? Take student diversity into account,

What Do I Want Students to Learn? What Do Students Want to Learn?

Student learning is the focus for teachers and students. Learners will be motivated by their future learning goals.

Design for Developing Skills While Learning Content

With the rapid increase in technology tools, 21st century learners need critical thinking and analysis skills that they can learn through curriculum studies.

Which Learner Supports Should I Include?

These can include scaffolding, providing student collaboration opportunities, and formative teacher feedback.

Assessment Choices

How will students be assessed? And why are students being assessed? Assessments can take a variety of forms, depending on the answers to these questions.
